

Mohammad Hossein Kabiri Samani

Education

- 2024–Present **B.Sc. in Computer Engineering**, *University of Tehran*, Tehran
GPA: 18.4/20
- 2020–2024 **Diploma in Mathematics and Physics**, *NODET*, Shahrekord
GPA: 19.7/20

Experience

- Feb **Full-Stack Developer**, *Vokalye Dodgar*, Shahr-e Kord, Full-time
- 2025–Apr ○ Built scalable Full-Stack architecture using Next.js 14 and React.
- 2026 ○ Designed authentication and data pipelines with Prisma ORM.
○ Implemented real-time systems using WebSocket.
○ Managed CI/CD and cloud deployment.
- May **Full-Stack Developer**, *Pooya Parto*, Shahr-e Kord, Full-time
- 2023–Feb ○ Developed LMS platform from scratch.
- 2025 ○ Integrated video streaming and real-time consultation.
- Sept **Teaching Assistant**, *University of Tehran*, Tehran
- 2025–Feb ○ TA for "Basic Programming".
- 2026 ○ Mentored students and supervised projects.

Projects

- AI/Quant Crypto Trading Bot: RL Agent for BTC Spot with PyTorch backtesting, utilizing HMM for market regime detection and Meta-Labeling strategy
- Deep Blood Cell Cancer Detection: Designed and compared Fully Connected and CNN architectures in PyTorch to classify 5 types of leukemia cells
- Bioinformatics Anti-diabetic Peptides Predictor: Developed Machine Learning models for Shahrekord University of Medical Sciences
- Data Science Telco Churn: Customer churn prediction model using machine learning classification techniques
- Machine Real Estate Price Predictor using regression
- Learning
- Python JobScraper for automated job market analysis
- IoT Smart Soil Moisture Sensor (ESP32, C++)
- Full-Stack Vokalye Dodgar platform with real-time features
- Full-Stack Pooya Parto LMS with payment integration

Tehran, Iran

📞 +98 9928063091 • ✉ m.kabiri.s1385@gmail.com
🌐 github.com/Mohammadhkabiri • [linkedin.com/in/mohammad-kabiri](https://www.linkedin.com/in/mohammad-kabiri)

Honors & Awards

2024 Top 100 rank in Iranian National Entrance Exam (Konkur)

Technical Skills

Languages Python, C, C++, JavaScript, SQL

Frameworks React, Next.js, Node.js

AI/Data TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy

Tools Docker, Redis, MongoDB, PostgreSQL, Prisma, Git

Research Interests

AI Deep Learning, Reinforcement Learning

Data Science Statistical modeling and data pipelines

Engineering Scalable system design

Languages

Persian Native

English Upper-intermediate

Tehran, Iran
